Don't miss the
picture "European"
Everybody cannot
have every thing!

Don't forget the
customer/contractor

Good, Pleasant
atmosphere
Good discussions.
Let's go on
we go on

Please don't forget
the organisation -
it's the frame/place/
reason why and
where we do our
job as supervisors,
coachs and
consultants!

Agree ..

suggest the
glossary should aim to
the diversity but
in the clear frame
of ethics (ethic code)

→ ~~discuss~~ ~~discuss~~ discussion
about supervision and coaching,
Kla Böhmer is main difference
we see for coaching - it is
education and training,
in the end - skills. That is
possible the main difference from other

→ like Goumar
idea: ~~supervision~~
and coaching
together.

Bring life into
Competence matrix!
by practice + team!

Enjoy our diversity!
let us forget to find
a compromise → mostly in
compromises all are ~~loser~~
loser.
↳ that we can see on the
"big" European level - and
it is not "sexy".

→ find more experts...
→ To send glossary to
not. organ. They ask
how experts to see and
look at it. Report only
on strong contradictions
→ It in future this
is linked with "Eus card",
important that is suitable
for all. In this case -
competence and skills are
important. I guess we can
agree on sth.

PROPOSAL:

IMPORTANT:
- Define description format
for DCC (definition, SCK-profile,
task/responsibility list, workplace
descr. etc.) ⇒ examples taken
from practice in addition

- Sharpen the terminology expressions
(e.g. "change" ⇒ formulate the
ability/skill goal more concrete)
